

# INSTRUCTIONS TO AUTHORS

## GENERAL

STUDIA MARINA publishes original scientific papers and short communications on marine biology, fishery, oceanography, and all aspects of marine sciences. The journal can also occasionally publish review papers or preliminary reports on all aspects of marine sciences. Such papers are generally accepted on invitation or agreed on with the editor.

The papers should be submitted via e-mail: [studiamarina@ac.me](mailto:studiamarina@ac.me)

## PAGE FORMATTING & FONTS

Manuscripts should be submitted to the journal in English in electronic form. Files should be edited in MS Word-compatible format (\*.doc or \*.docx files). The total number of pages should not exceed 20.

The paper should contain:

- Title (in English) in Sentence case, font size 18-pt
- Author(s) name and surname
- Author(s) name should be linked to their respective institutions using numbers in superscript (e.g. John Doe<sup>1</sup>, Jane Doe<sup>2</sup>, etc.)
- Names and addresses of institutions and/or companies
- E-mail address of the first author or the corresponding author only, marked with \*
- Abstract, not exceeding 200 words
- Keywords: not exceeding 5 words
- Paper should include the following sections: **ABSTRACT, INTRODUCTION, MATERIAL AND METHODS, RESULTS, DISCUSSION** (or **RESULTS AND DISCUSSION**), **CONCLUSIONS** (if necessary), **ACKNOWLEDGMENS** (if applicable), and **REFERENCES**. Translation of the Abstract and Keywords to the local language is welcome, but if unprovided the translation will be provided by the editorial board.

Authors should prepare the manuscripts keeping in mind that STUDIA MARINA is printed using the following guidelines:

- Paper size: ISO A4 (21 mm × 29.7 mm)
- Margins: top and bottom – 2.5 cm; left and right – 2 cm
- Text alignment: justified;
- Font: Times New Roman
- Text size: 12-pt font size (unless specified otherwise)
- Line spacing: 1.15
- Paragraphs begin with a first line indentation set at 0.7 cm.

## CITATIONS & REFERENCES

Text citations are given as Doe (2008) or (Doe, 2008). If reference is made in the text written by more than two authors, the first author should be followed by *et al.* (Doe *et al.*,

2008). Two authors are listed as Sokal & Rohlf (1981) or (Sokal & Rohlf, 1981). In the list of references all authors must be mentioned.

The list of references should be arranged alphabetically by author's surnames and chronologically per author. If an author on the list is also mentioned with co-authors, the following order should be used: publications of a single author arranged chronologically, followed by publications of the same author with more than one co-author. Publications by the same author(s) in the same year should be listed as 2008a, b, c etc., both in the text citations and in the list of references. Hanging for the References list should be set to 0.7 cm.

Journal references should be as follows:

## TABLES & ILLUSTRATIONS

Tables should be included in the manuscript body, after being referenced in the main text, with a fully informative caption as a heading above the table itself. Numerations and titles of tables should use Arabic numerals (Table 1. *Lorem ipsum...*), font size 11pt. When referring to the tables in the main text, use the following style: (Tab. 1). Authors are kindly asked to avoid vertical lines, special effects (e.g. embossed cells) and/or shading in tables.

Illustrations (line drawings and photographs) should be inserted in the manuscript body at the appropriate place (after being referenced in the main text). Their numerations and titles of figures should use Arabic numerals (Figure 1. *Lorem ipsum...*), and should be placed beneath

the illustration, font size 11pt. When referring to the figures in the main text, use the following style: (Fig. 1).

Illustrations, including the photographs, should be of high quality (>300 dpi), with contrast and fineness of grain to withstand the loss of contrast and details during the printing process. If micro-photographs are used, a scale-bar indicator should be included.

If your contribution includes textual or illustrative material not in your copyright and not covered by fair use, prior to publication the author(s) should obtain all necessary authorizations and the relevant permission correspondence should be attached to the manuscript.

## MISCELLANEOUS

Please use decimal point as a separator in decimal numbers (14.24 mm, 18.2 m/s). Time of day should be in 24-hour format (e.g. 21:43 h).

Equations must be numerated as:

$$Y=ae^{-xt} \quad (1)$$

In the text they should be quoted as in following examples: “as shown in equation (1)” or “parameters of the growth curve (equation 1) were...”.

Use the multiplicator sign (×) as opposed to lowercase “x” or uppercase “X” where appropriate. Use the degree sign (°) where appropriate and not a superscript lowercase “o”, uppercase “O” or zero (0).
